

thePigGuide

your local guide to eating out

The Pig Guide has grown to be the most respected independent food guide in the South West

Our **@ThePigGuide** Twitter feed is a vibrant, active, on-line community of local foodies who share their news and views about the Bath and Bristol food scene as well as keeping an eye on what the best chefs are up to in their kitchens and which forthcoming events might pique their interest.

Over 12,000 Twitter followers engage with @ThePigGuide and over 5,400 with @PigGuideBristol on a regular basis, using our interactive forum as an indispensable resource with a reputation for experience, authority and authenticity.

www.thepigguide.com is our regularly updated website with full profiles of all our members as well as local food & drink news. It's a great promotional vehicle for your news stories and offers.

The Pig Guide also has a **weekly e-newsletter** where we feature members' news and stories. This is all valuable extra publicly and is included in your membership – so please tell us your news and we'll include it in our emails!

our ethos

The Pig Guide aims to support the independent sector. We do, however, include selected business with multiple outlets that we believe to be particularly deserving of attention and which clearly maintain responsible sourcing, cooking and staffing policies.
